Products & Services Guide

Interactive Technology Video Conference

THE SMART **ALL-ROUND** MEETING/CLASSROOM SOLUTION

The MIRA has it all! Being Newline's most versatile display, this solution will fulfil nearly every need in the corporate workspace or classroom. Suitable for classrooms, meeting rooms, huddle spaces, lecture halls and offices, MIRA is the proven successful solution. The combination of optical bonding and advanced IR touch results in exceptional touch accuracy and a smooth writing experience with recognition of pen, finger and palm. But there is more! Other optical bonding benefits include clear images, vibrant colours and a true 178° viewing angle.

The built-in camera and microphone facilitate easy collaboration and video calls. Unique fast keys make navigation between your favourite apps, interactive whiteboard, computer and any other source super easy. The integrated interactive ecosystem tools enable secure wireless presentation and collaboration. The flexibility of MIRA makes this interactive display the ultimate solution for your classroom or workplace!

Features include 20 point touch, built-in Android 8.0 OS, and 4K Resolution.

Available in sizes 65", 75" and 86".

Anti-glare tempered glass, 2 x 15 watt speakers.

Fully installed by our experienced installer.

Projectors & Projection Screens

Whether you have a large venue or portable requirement, we can help. We have an extensive range of projectors available from manufacturers such as Epson, Hitachi, Casio and NEC. We offer a free site consultation or simply advice to establish the most suitable projector for your requirements taking into account position, lens throw, and brightness required etc. We offer a full comprehensive installation service if required.

Supplied and fully installed by our experienced engineers ideal for conference rooms, classrooms and meeting areas.

Internet and PC Security

eSET ENJOY SAFER TECHNOLOGY™

Windows
Android
Mac
Linux

Data Security and Back Up

WE ALL RELY ON DATA. HOW SAFE IS YOURS? WHAT IF YOU LOST IT ?

What are the risks to not backing up your files off site?

What if there is a fire or computer theft?

Is it really safe to rely on a USB flash drive?

How would you feel if your computer suddenly stopped working?

What if it couldn't be repaired?

Imagine losing:

- | | | | |
|------------------------|--------|----------------------|---------------------|
| • Customer information | Emails | Drawings and designs | Accounts |
| • Invoices | Quotes | Personal photographs | The list goes on... |

There is a solution: an automatic live backup of your data, keeping it safe.

IT Hardware & Support

We can supply home and business users with:

- New laptops
- New desktop computers (customised to customer needs, including gaming systems)
- 4G / 5G broadband, ideal for rural locations

We also offer IT support including:

- Full hardware repairs (laptop, desktop, servers and network hardware)
- Full network infrastructure installation and support
- Remote IT support
- On-site IT support capabilities

IT Recycling and Refurbished PCs

Do you have any redundant IT?

Complete collection service **Free data sanitisation** **Free disposal**

In accordance with current GDPR guidelines

Recycle your old IT hardware with us and we guarantee safe data destruction using military grade software. We will also issue you a data destruction certificate.

Our recycling process ensures all hardware is either reused to refurbish or repair other systems, or is safely dismantled and recycled. We ensure 99.5% of items are recycled and nothing goes to landfill, which is helping to save the planet!

** minimum 5 items, one of which must be a laptop or desktop*

Digital Signage Players & Screens

Keep your customers up to date with our range of digital signage players. You can transform your public areas, shop fronts and restaurant areas with our range of digital signage players. Play video, show images, RSS feeds, and have live TV running alongside your promotions in bars and restaurants. Advertise your products and services quickly and easily. Ideal for promotions. Change content in as quickly as five minutes.

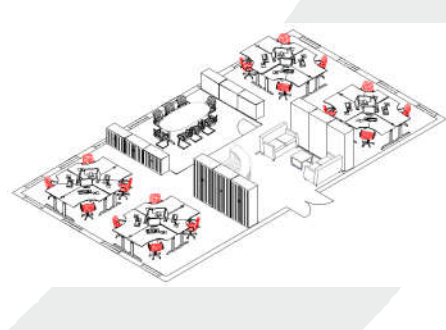

Installation

Our fully trained and experienced teams install throughout the UK, working closely with our clients from initial enquiry to completion. So whether you need to simply upgrade a projector or display, upgrade an old system, or would like to transform your classroom or boardroom with interactive technology, we can advise and tailor the install to best fit your environment.

Free site surveys are carried out to ensure suitability and to establish the client's vision.

Office Furniture and Interiors

We can help with all furniture requirements from a simple lectern or desk to laptop charge/security cabinets to full office layouts fully designed to meet current regulations. Our range includes staging, dry wipe boards, internal and external noticeboards, screen and TV trolleys, and cabinets.

Printers & Print Consumables

Our print experts can help and advise on the best printer for your needs, whether for small businesses or larger departmental printing within a large office. We will take the time to discuss your requirements properly from print volume to budget in order to find the most cost-effective solution.

We also have access to a wide range of consumables to fit most major manufacturer's machines such as HP, Brother, Canon, Epson and Kyocera, both original OEM and compatible cartridges. Please contact us for our best contract pricing with free delivery.
